Miss Elman,

Pursuant to you letter of 2/6/74.

Please separate the above and regard it as your bill.

I understood you are in the preliminary stages. It is because decisions can be made without fullx appreciation of potential that I wrote and phoned. There is much here that is not generally known. And my knowledge of the characters, including King and the hidden changes that had taken place within him, has increased enormously with the investigations I conducted following publication of Frame-Up.

There is, I believe, also a promising lawyer movie in the work of which the book is only part.

Sincerely,

Harold Weisberg
